RESEARCH AND DEVELOPMENT CELL

As a part of the capacity building initiative for faculty members and students (undergraduate, post-graduate, and Ph. D.) various training were conducted at various constituent units of the Vidyapeeth. After obtaining feedback from the stakeholders, a dire need was realized for training and sensitization about the various key aspects of research paper writing. Exclusive training was planned in this regard and was executed.

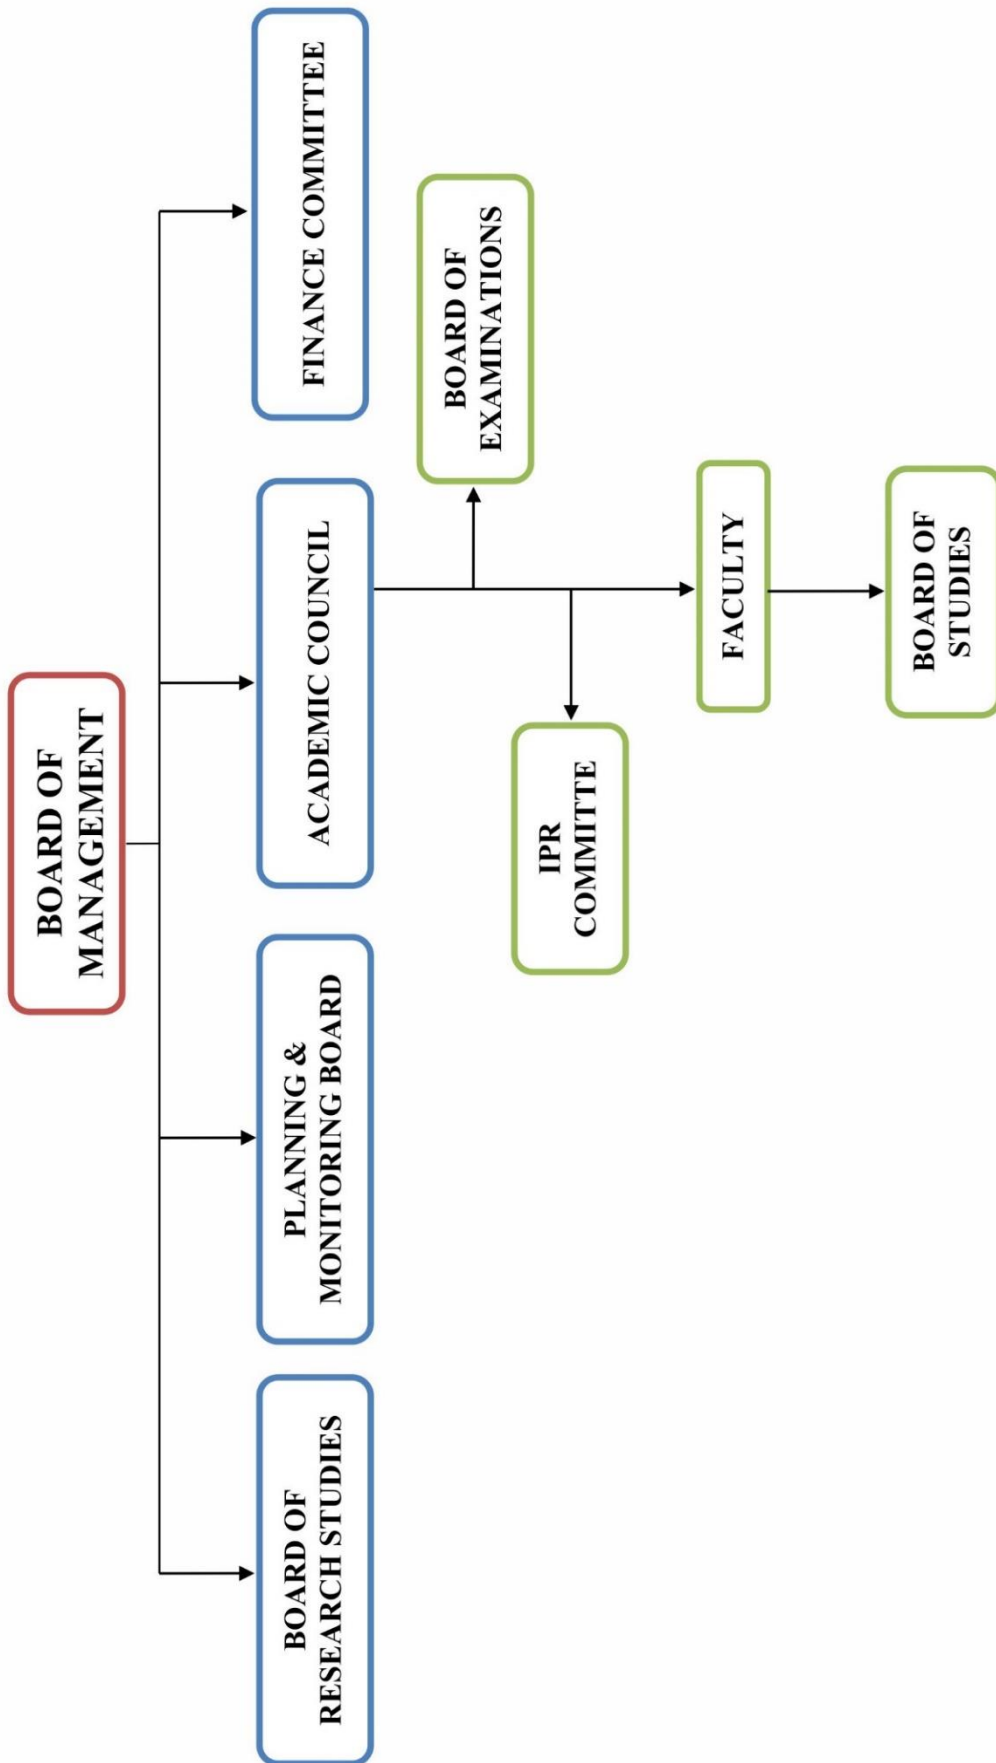

For uniformity of quality standards and strengthening the data and documentation process for research, innovation, and extension across the various constituents' units, the research and development cell along with IQAC conducted series of workshops in the month of July. As a part of the internationalization of the Vidyapeeth, various seminars were organized on QS ranking and QS I-Gauge rating by qualified resource personnel. Various meetings were conducted in the month of June for awareness of various reputed databases for targeting the research paper publication. In addition, luminaries from international universities such as Dr. Shrikant Mane, Director, Genomic Sequencing Laboratory, Yale University, USA; Dr. Murphy, Harvard Medical School; a team of academicians and researchers from John Hopkins University, visited the campus for potential collaborative research projects.
