## NEWSLETTER

Vol. II - July 2021 to December 2021

## Chancellor's Message

### Dr. P. D. Patil

**Dear Students,**

Welcome! As we reach the fag end of 2021, the COVID-19 pandemic continues to disrupt our lives and bring uncertainty and ever-changing guidelines. But I do believe that every cloud has a silver lining and this too shall pass. As poet P. B. Shelley in his "Ode to the West Wind" said, "If winter comes, can Spring be far behind?" "Yes... there is still hope and light despite all the darkness.

I believe every hurdle in our life teaches us something. There are two sides to every coin. Take for instance, the COVID 19 pandemic. It has taught us to overcome many obstacles and made us more resilient. We have become more self-reliant and have found new ways to keep ourselves motivated and ensure uninterrupted workflow. We must seize every opportunity to inspire and enhance ourselves.

Even in the thick of the COVID 19 pandemic, we at Dr. D. Y. Patil Vidyapeeth (DPU), Pimpri, Pune have continued to work relentlessly to ensure that our students and staff have access to critical resources and remain up-to-date on the latest developments. We have adapted ourselves to the new normal and have kept ourselves abreast with the rest of the world. All our hospitals viz Medical, Dental, Ayurved and Homeopathy are NABH accredited and laboratories are NABL accredited.

Lao Tzu, a Chinese philosopher said, "The journey of a thousand miles begins with one single step". This saying aptly fits the mindset of the student community and staff of the Vidyapeeth. They have continued to strive against all odds and have proven it. During these last couple of months, our students and staff have achieved many goals and crossed many milestones. Kudos for their achievements!

This newsletter serves as a platform and highlights the literary, artistic strains and also highlights the educational, cultural, and sports activities of DPU. We have chronicled all these achievements and more, in this newsletter as we wanted, each write-up and picture to instill pride and inspire you so that you can easily achieve your own vision, goals, and dreams.

As you leaf through on newsletter, you will realize that there is an imprint of the Vidyapeeth mission, vision, and ethos in all the pages. It has always been our calling to provide the best opportunities to our students and staff. Here they are given an opportunity not only to gather knowledge and skills, but we also urge them to hone their inherent skills and abilities. At DPU, we not only impart high-quality education, but we believe in the holistic development of our students which will equip them for their brighter tomorrows. We have always believed in the "now" and to reap the benefits of every opportunity that comes one's way and strive for excellence.

Before I conclude, I would like to wish my staff the very best for all their future endeavors. May you rise and shine and continue to strive forward and bring glory to yourself and the Vidyapeeth.

## Editor's Desk

### Dr. (Mrs.) Smita Jadhav

Dear Students,

**Welcome!!!**

Since our last DPU Newsletter, quite a lot has transpired. Another year and then some have passed, and we are here today, looking back in a year full of passages. The COVID-19 pandemic has become a new reality in our lives. However, it gave us an opportunity to CHANGE, to REINVENT ourselves, and to APPLY this re-invention to what we love. And we at DPU have been doing just that. We have always believed in ourselves and our goals. We are willing to take risks, have challenged ourselves, and have overcome many obstacles. We have made the best use of the resources that have been available to us. As Martin Luther King Jr said, "If you can't fly, run. If you can't run, walk. If you can't walk, crawl. No matter what, keep moving." DPU has been forging its

own path and plotting a new course. We consider that problems are not the stop signs, they are the direction maps.

This year too, we have surmounted various obstacles and have scored many goals and achieved many milestones. But we have always remained committed to excellence in teaching, learning, and research, and to developing leaders who have made a difference globally. And we are still continuing with this endeavor. Faculty and students are always busy and active, pursuing interests and challenges, and watching life's carousel turn.

This Newsletter highlights the academic and co-curricular activities, achievements, and progress made by the students at the various Institutes of DPU. We hope you enjoy catching up, learning about the many facets of the Vidyapeeth.

It will give you a peek at the achievements and progress in the various streams like humanities, natural sciences, social sciences. The wide spectrum of articles in different sections gives me a sense of pride that our students and professors possess the creative potential and original thinking in ample measures. Each article is entertaining, interesting, and absorbing. In the pages, you will also get a glimpse of creative pursuits like visual and performing arts.

We would like to congratulate the students whose papers are published in this issue of the Newsletter and simultaneously encourage all the students to contribute their research papers and articles for the successive issues of the Newsletter. We look forward to keeping you posted on our progress on each of these vital fronts, and on the remarkable accomplishments of our students, faculty, and alumni. For everyone else, do good work, aim higher, and achieve your goals in life. As Saint Mother Teresa said.

*"Life is an opportunity, benefit from it. Life is beauty, admire it. Life is bliss, taste it. Life is a challenge, meet it. Life is a duty, complete it. Life is a game, play it. Life is a promise, fulfill it. Life is sorrow, overcome it. Life is a song, sing it. Life is a struggle, accept it. Life is a tragedy, confront it. Life is an adventure, dare it. Life is luck, make it. Life is too precious, do not destroy it. Life is life, fight for it."*
