Chancellor's Message

Dr. P. D. Patil

Greetings!

I am delighted with the release of the latest issue of Dr. D. Y. Patil Vidyapeeth (DPU) newsletter! The newsletter records the various achievements of DPU in the last academic year.

The best thing about this issue is that it represents the creative side of DPU students to a fair degree—something that we think we all need to reconnect with. Amidst the busy schedule of semesters, exams, surprise quizzes and all those assignments and problem sheets that keep one busy, we tend to lose track of all the other simpler things that we are capable of, things that we could have been proud of, that can bring one satisfaction. So this time, the issue has made an attempt to bring out the talent concealed within our student community. This issue includes articles, poems, anecdotes, art-works and a host of other things.

In this issue, you can read examples of the impact that our faculty and staff members have on students and alumni or see how our student body steps up time and time again to help others in their time of need. I hope that reading this newsletter will have an impact on and encourage you to have an impact on others. We may never know how much our words or actions influence the lives of those around us. But we can choose daily to be a positive influence on others in a way that could change the rest of their lives even if it's just within the walls of where you work. Here at DPU, colleagues not only support and encourage each other but are there in time of each other's need.

As for our team of editors, designers, photographers, and correspondents, in addition to generating creative content from the student population has worked extensively to report on the events in and around the Vidyapeeth. The final publication reflects and encompasses the diversity inherent to the academic and extra-curricular spaces in DPU. The newsletter continues to expand its reach to achieve its vision of being a truly representative student publication.

God Bless!

Vice Chancellor's Message

Dr. N. J. Pawar

At DPU, cultural activities have always been an integral part of students' academic pursuit. For, every activity in an educational institution plays a significant role in students' overall development.

The Vidyapeeth designs cultural and social activities that are aligned with the educational objectives of the institution and the requirement of the students. Whether the activities focus on sports, arts, music, science or other areas and co-curricular activities.... they play a significant role in students' overall development, as well as screening talents and giftedness among students. The DPU Nite is one such event!

These activities assist students in adapting to real life scenarios and enhance their personal skills. It also helps them in bettering organizational, presentation, leadership and interpersonal communication skills. Not only that, these activities play a compelling role in enriching students on an emotional, cognitive, physical, and social level. It also acts as a catalyst for the promotion of national integration, coexistence, cultural values, and general health and well-being of the country. So, organizing these activities is a must. The coordinators of these events at DPU spend considerable time organizing, managing and balancing these activities so that it is attuned properly with the academic curriculum.

All these activities provide every student get the opportunity to learn beyond subjects and the mere confines of a classroom. In today's times, the importance of these activities cannot be undermined.

Editor's Desk**Dr. (Mrs.) Smita Jadhav**

Welcome!

It's the time of the year when we start to take account of our accomplishments and triumphs and set new goals. At the same stage, we review our shortcomings, try to recalibrate it and never rerun it. But, we have also scored many goals in the last couple of months. It has been feasible only because of the efforts taken by our faculty and students. Kudos for their achievements! This issue highlights that span of expertise. It captures a vibrant mix of intellectual prowess in the humanities, natural sciences, social sciences and so on. It also encompasses a wide range of creative pursuits in the visual and performing arts. We also wanted each write up to inspire and provide you with the how-tos and resources so that your own vision, goals and dreams would become attainable to you in your unique way.

Coming to Dr. D Y Patil Vidyapeeth (DPU), Pune, we have always encouraged our students to reach for the stars. We try to bring out the inherent qualities latent in them. The formal and informal, tangible and intangible, activities together prepare students for real life and strengthen their personal skills. To make each student reach their target, we have left no stone unturned.

All this is done keeping in mind the values and ideals of the Vidyapeeth like being compassionate, self-reliant, to be a leader amongst others and so on. According to Dr. D Y Patil, the Founder of Dr. D Y Patil Vidyapeeth, ethics and principles should be imbued in the ethos of the rich Indian culture. And..... I have always believed that ideals and values maketh a man!

In this case, the lines of the poem "IF" written by the Nobel Laureate Rudyard Kipling is apt. It says....

*If you can dream - and not make dreams your master;
If you can think - and not make thoughts your aim;
If you can meet with Triumph and Disaster
And treat those two impostors just the same;
If you can bear to hear the truth you've spoken
Twisted by knaves to make a trap for fools,
Or watch the things you gave your life to, broken,
And stoop and build 'em up with worn-out tools:*

..... perorates many moral values that might change a person to be a 'man of the Earth'. It expatiates specific values to live by in life. The central idea is that success comes from self-control and a true sense of the values of things. In extremes lies danger. One must not languish because of doubts or opposition, yet put in his very best to see the grounds for both. We should live not only for ourselves but also for others. If these principles are practiced, everyone can live in peace and harmony. Moreover, to achieve your goals, one must have balance.

With this relevant counsel, I would like to conclude! Before that, I want and will welcome your feedback and input. I just want this Newsletter to be the very best that it can be.
