From the Chancellor's Desk

Dr. P. D. Patil

An important objective of the Vidyapeeth is to establish and extensive global knowledge network in order to facilitate the attaining of excellence in its teaching and research programmes. In the case of higher education, internationalization is manifested in many ways including student and faculty mobility, institutional collaboration in developing of curricula, teaching and research and the delivery of educational programmes across national borders.

It was accepted that internationalization did offer some benefits in the form of increased access to advanced programmes, addition of an international dimension to curricula and improvement in the quality of education through of example and competition.

The higher education needs to be viewed in global perspective. There is a need for global facilitation of higher education. It involves a serious rethinking towards restructuring of higher education to render supreme importance to quality driven innovative, realistic and result oriented teaching –learning practices and research of global standards. There should be greater flexibility in the policy framework to attract international faculty and students. Collaborative researches with international partners will play a major role in strengthening our position on global landscape. Our Universities will have to adopt international outlook and support greater participation of faculty and students in international exchange programmes and other academic events.

This in spite of the oft-quoted Vedic exhortation, '**Vasudhaiva Kutumbakan**' – 'the whole world is one family'. The educated class is more receptive to change, but even in their case there is a need to explain the rationale behind internationalization.

Research is an essential component of a higher education system to ensure it remains vibrant and is quick to respond to and anticipate changes arising in the contextual conditions. One of the input parameters to ascertain progress in research is the quantum of spending on research and development activities. Another important parameter to measure research is the enrolment and award of Ph.D.'s. The number of Ph.D.' awarded in India has doubled over a period of time.

From the Vice Chancellor's Desk

Dr. P. N. Razdan

It is my profound pleasure in presenting to you the Eleventh Annual Report of the Dr. D. Y. Patil Vidyapeeth, Pune (DPU) for the year 2016-2017. The present report covers administrative, academic, and co-curricular activities of the University and its constituent colleges/Institutions from 1st June 2016 to 31st May 2017.

Today, man feels proud that he has mastered many branches of knowledge and studied a number of texts. But he does not try to understand the essence of education. Nowadays, learning is limited only to physical and worldly aspects, and moral, ethical and spiritual aspects are left out.

Furthermore, some say knowledge is the most valuable acquisition, but character is more valuable than knowledge. One may be a learned scholar or hold high positions of authority, or may be very wealthy or an eminent scientist but if one has no character, all the other attainments are of no use at all. Sacrifice, love, compassion and forbearance are the sterling human qualities that one should foster.

We have often heard that Education makes a man. In today's fast-paced world, where everything is changing at a rapid pace, it is important that change be brought in the education system also. We at Dr. D. Y. Patil Vidyapeeth, Pune, believe that instead of being localized, the education should be globalized. Global education is a viewpoint that has risen from the fact that modern people live and interact in an increasingly globalised world. It not only provides an opportunity but also enables the students to reflect and share their point of view and role within a global, interconnected society. Global education is something that opens people's eyes and minds to the realities of the globalised world and awakens them to bring about a world of greater justice, equity, and Human Rights for all. We provide a global platform to our students, where collaboration with international counterparts is done along with interactions with internationally acclaimed guests so that the students passing out from the University have a global vision to their knowledge.

Emerging trends in technical and professional education call for value addition, which means that students must acquire something more than what is provided in the curriculum. There is need to enhance their communication skills, to develop professional ethics in them and to help them learn and develop human values and concern for humanity. The constituent colleges/institutions of the University have dedicated mentors and state-of-the-art infrastructure with well-stocked libraries and well equipped laboratories. The programmes being offered by the university are developed in consultation with experts from respective fields. The University encourages its teachers and students to undertake innovative and relevant research to spread value-added knowledge.

In recognition to our effort to enhance the quality ambience, National Assessment and Accreditation Council (NAAC) has re-accredited DPU with a CGPA of 3.62 on a four point scale at 'A' Grade during the year under report.

I wish you all a successful year filled with achievements, professional fulfillment, and growth as we rise to meet new challenges and opportunities for our University.

Dr. P. N. Razdan
Vice Chancellor

Dr. D. Y. Patil Vidyapeeth is an innovative, progressive and responsive Vidyapeeth committed to the belief that high-quality inspirational teaching and applied research can transform individuals, organizations and communities.

We intend to identify clear priorities in relation to the student experience, development of these plans Academic Portfolio, Research base and the efficiency of our operations are refreshed at regular intervals so that, we can achieve greater focus in our priorities and set out a clear statement of our ambition. It also allows us to reflect on changes in the external environment.

Our vision for 2025 is to be established as one of the top 100 Universities across the world, known for the quality of our teaching and learning, with a particular commitment to health related studies. Our research strength in specific subject areas, are world class. By 2025 we will be known for the quality and range of our partnerships with profession, business industry and

government. This vision will be achieved by working towards the aims and objectives set out within the corporate plan.

We pride ourselves on making a difference – to our students, our staff and to the society we work with. Our research alongside our sought after graduates contributes to the economic and social development of both our region and the country as a whole.

Our teaching is supported by our world-class applied research. Our students are a diverse group and benefit from a tailored approach that helps them to get the most from their studies. We offer top quality teaching-learning facilities and the opportunity of academic flexibility that best suits their needs.

Our facilities are state-of-the-art and we have invested heavily in new technology to ensure that our technological capability matches the cutting-edge approach of our teaching. Within a short span, we have come to be recognized as a Centre of Excellence for Teaching and Learning as well as employability.

The Vidyapeeth provides high quality education in the Faculties of Medicine, Dentistry, Allied Medical Sciences, Nursing, Biotechnology and Bioinformatics, Management and Distance Learning through eight institutions. In each programme, the Vidyapeeth ensures that it provides high quality education, pursuit of knowledge and impetus to creation of new ideas.

A Resource and Information Centre – Library

The Dr. D. Y. Patil Medical College Learning Resource Centre (LRC) is rapidly building up to be one of the leading professional research libraries. All bibliographic details of books, journals, and CD-ROM databases are accessible through the campus network. The library has vast number of printed documents, and it has established contacts with other organizations for exchange of the Institute's publications and inter – library loan arrangement. Each institution has its own world class ambience with library.

The Medical College library is having 50,000 sq.ft. area. There are four reading rooms, two for U. G. students one for faculty & one for P. G. Students with centralized A.C. There are three stack rooms for shelving the reference books, textbooks and bound volumes. There is a spacious journal section, Audio visual room and e-library having 50 nodes.

There is OPAC system for searching books and separate arrangement for newly arrived books. The News paper section for light reading and cafeteria especially for students. For drinking water arrangement of two coolers is done. The facility of lift and wheel chair is available for handicapped students.

Library is having collection of text & reference books, with latest editions. The subscription of National & International journals is renewed yearly along with e-journals. The bound volumes, CDs & Thesis are available to users for reference. The library has prepared a database of books & periodicals in different subjects. The house keeping activities like Acquisition, Serial Control, Cataloguing, OPAC have been automated by using "DPU Campus ERP Library Management Software".

Library as Learning Resource

The University Libraries and computing services work hand in hand in acquiring and maintaining hardware and software resources for end users. Support for multiple platform is a necessity. Libraries will not have the necessary resources to cope by themselves with changes that will affect the whole academic community. Libraries whose sole purpose is to organise the

acquisition and circulation of scientific journals access the most recent papers from their workstations. Indexing, Archiving and retrieving will remain but can become a global task of a Central Library.

General purpose of libraries possibly decentralised will offer books, CD-ROMS, workstations, workspace and guidance to less specialised users. Because of the multidisciplinary nature of current research they will remain useful to researchers as well as to students. The number books and journals published continues to grow. The collections of scientific journals, the other sectors of libraries will continues to grow at current rate. The library is the good place for providing study facilities and technologies to its students and faculties. Its staff is trained to help students and faculty while preserving precious resources.

The new role of libraries in the learning process will require programmes professional development for the staff and training for the users. The library buildings are moving forward a more vibrant and welcoming atmosphere using natural light and quality materials with flexibility for future growth.

The libraries are the intellectual heart and soul of the colleges and universities. Our libraries provide eloquent testimony of our commitment to serious study, the encouragement of diversity and the free exchange of ideas and a research environment. Strong digital libraries requiring participate collectively in support of research agendas are also must in this new environment.

You may have seen that the library is embarking on an exciting renovation of the new high technology with shifting in New high tech. hospital building in a spacious place for staking books, journal magazines with digital library system with wi fi facility and comfortable seating facility The update is focused on redesigning the library space students, faculty and research scholars. The library is equipped with necessary educational aids.

Research

University can grow successfully only when teaching and research gel together symbiotically as they have no independent existence. We have created a conducive environment, to undertake collaborative research projects combining teaching learning and research, to nurture originality, creativity and novelty. We are proud to state here that DPU published this year 685 papers in International and national journals of repute which are indexed in Scopus, Pub Med, Web of Science and Google Scholar. These cover a wide range of areas from medical, dental, biotechnology & bioinformatics, physiotherapy, nursing and management. There has been a significant rise in h- and i- index, indicating translational value and citations received by individual publication. The highest impact factor among the publications during the year under report was 23.0. Publishing paper is only one part of research, however filing patents and writing book chapters, editing books, forms yet another aspect. Several abstracts have been presented in various National and International conferences by faculty members and students. DPU has also published Two patents during the period under report.

A research is impossible without funding. DPU has always been supporting research activities by providing intramural funding worth 73.59 lakhs during the year. In addition, university has received a total grant worth Rs. 9.47 Crores from Department of Biotechnology (DBT), India, Department of Science & Technology (DST), India, CSIR-IGIB, Delhi, ICMR and foreign agencies like National Institute of Health, USA, Harvard Medical School Centre for Global Health Delivery, Dubai, Swedish International Development Cooperation Agency (SIDA), Sweden, Swedish Research Council, Sweden and International Team for Implantology (ITI), Switzerland etc. for new and ongoing projects. Moreover, a grant of Rs. 47.67 lakhs is received for various clinical trials in Medical College. It is indeed a matter of pride that Biotechnology & Bioinformatics Institute of DPU in collaboration with Praj-Matrix Industries, Pune has received a grant of Rs. 7.13 Crores from DBT, Government of India for a project entitled “Opportunities to explore microbial diversity for industrial important microbial products”.

International Research Collaborations:

In keeping with our motto of 'Breaking Boundaries – Finding Frontiers' and one of our missions, namely, partnerships with organizations with congruent ideals, we have signed MoUs and collaborative agreements with many institutions worldwide. The International linkages of DPU have helped it in drawing upon the wisdom built up at the partner institutions of repute.

- Linnaeus-Palme teachers' exchange program between DPU and University of Skövde, has been funded by the Swedish Council of Higher Education, under which two faculty members from DPU visited University of Skövde, Sweden for duration of one month and two teachers from University of Skövde, Sweden will be visiting DPU.
- Under a bilateral agreement signed between DPU and University of Skövde, Sweden, four students of M.Tech Biotechnology are performing their one year project at Sweden for 2016-17. Based on the performance of the first batch, the International Office of University of Skövde requested us to nominate 4 more students for 2017-18 with full waiver of their tuition fee for full one year.

- The Department of Global Health Education, Johns Hopkins University has been sending their students in batches to our medical and nursing institutes, to provide them global health training at DPU, by fostering a collaborative learning environment under their Global Health leadership programme. During the period under report, five groups of 25 students and two faculty have undergone training at DPU campus.
- Since March 2012, DPU has been successfully participating in India HIV Case discussion, through video conference on every third Wednesday of the month conducted by Department of Clinical Global Health Education, John Hopkins University, with number of participating centers & this program is witnessed live worldwide in many countries & recently our undergraduate students participated in a regular online course on 'Introduction to Global Health Course. Successful students were issued certificates on course completion.
- MOU with Surindra Rajabhat University, Surin, Thailand to conduct collaborative and interdisciplinary research and education in the health field. This collaboration will develop state-of-the-art research programme including joint research projects, exchange of visiting scholars and graduate/undergraduate students, joint educational initiatives, seminars, workshops, conferences and technical exchange in health research and education areas.
- Department of Physiology in collaboration with Diabetes & Islet Biology Group of University of Sydney, Australia is performing collaborative research under nutrition & Pancreatic regeneration.
- Department of Microbiology participated in the project of Johns Hopkins University, USA entitled “Bacterial antimicrobial resistance patterns in Pune, India in febrile illness”.
- Innovative study in collaboration with MIT (Massachusetts's Institute of technology, USA) called Smart stethoscope study is developing an android based application which can analyze lung sounds and give a possible diagnosis of the patient.
- A big registry of bronchiectasis is being built up by an initiative taken by European Respiratory Society, called EMBARC. Department of Respiratory Medicine regularly participates in this registry by reporting the cases
- A collaborative research project, funded by the Nestlé Foundation, Switzerland, titled “Prevalence of hypoplasia associated severe early childhood caries and deciduous molar hypo mineralization amongst 3 to 6 years old Anganwadi children in Pune, Maharashtra – A Cross Sectional Study”, between Dr. D. Y. Patil Dental College and Nestlé Foundation, Switzerland was successfully completed in 2016.

DPU realizes the importance of planning and its methodical implementation to achieve the desired and cherished goals as well to move towards excellence. In order to plan for the future, there is a need to understand the growth and development of DPU till date. Hence an attempt has been made to draft the VISION DOCUMENT – 2025

Phase-Wise Approach

TAILOR-MADE TO ACCOMPLISHMENTS

The real work of the vision document committee begins once the Vision 2025 is declared. Goals, Objectives, Mission and Vision are like a campaign for championship. Every Goal scored / achieved brings us closer to winning a match, which is completing an Objective. Every Objective achieved takes us to the next round of semi-finals, which is the Mission. Winning semi-finals is what takes us close to entering the final stage of Mission. Conquering the finals is what accomplishes the dream of championship, for which the whole team has worked so long, so hard. This is what is accomplishing the Vision. The only difference between the championship and the Vision is that for the later, most matches are played with yourself and not with any external force. This is the reason that a transparent, honest and meticulous plan of action is put in place.

This Action Plan must be designed to the specific needs of the University in order to be effective because standardised solutions tend to have a low probability of success. A phased approach brings maximum efficacy to the Action Plan and benefit to the institutes that they serve. It allows time in the initial phases to gather crucial, first-hand information, overcome resistance to change and leads to a well defined and successful conclusion at the end.

A phased approach will:

- Help to overcome resistance to change
- Allow for lessons learned in early phases to be incorporated in systems installed in later phases
- Establish a solid foundation of available task-level data prior to rolling-up academic enterprise-level information
- Allow the necessary time (in the initial phases) to gather first-hand information about task-on-hand characteristics, personnel and cultural nuances so that the delivered solution can be tailored appropriately.

1. INITIATION PHASE

Throughout the initiation phase, DPU will use pilot projects to build process momentum, overcome natural resistance to change and gain first-hand knowledge of every institute. The goal of this phase is to successfully mobilise every institute, remediate any current at-risk projects and set the stage for the next two initiation phases. During this phase, the task management methodology will be introduced and training will be conducted wherever found necessary, but only for those individuals who will be specifically associated with pilot project teams.

Deliverables Expected

- Initial communication(s) to Vision Committee and assistance in the identification of pilot projects.
- Project management methodology and training for identified pilot team members.
- Project plans and formal monitoring processes in place for all identified pilot projects.

- Alibrary of project "templates" for use during the initiation phases.
- Standardisation of project-level report formats.
- Finalised requirements and a plan for the project-level initiation phase.

2. TASK-LEVEL INITIATION PHASE

The second phase will utilise information gathered from pilot projects in the initiation phase to roll-out structured planning and control processes for all remaining projects as well as to formally establish the Development Management Office. This phase can include formal guidelines for project planning / control and a web-based activity update. Training will also be imparted to all concerned in the Institutes and the University during the project-level installation phase. By the conclusion of this phase, the focal point of *every* task on hand and the respective Executive Body will be in-place, all team members will have been trained and the Vision Committee will be ready to begin transitioning from their role of supporting project team requirements to supporting the Executive Body members.

Deliverables Expected:

- Network-based, structured project plans and formal monitoring process for all targeted projects
- Rollout of training to all project leaders and team members.
- Implementation of the initial task completion structure.
- Finalised requirements and a plan for the academic enterprise-level implementation phase.

3. ACADEMIC ENTERPRISE-LEVEL IMPLEMENTATION PHASE

During the academic enterprise-level implementation phase, tools are assigned and applied, for example, performance metrics through a management committee presentation to gain summary-level visibility to project status and project scheduling based on approved resources and task priority listing. These tools are focused on managing an institute's entire portfolio of tasks and new projects. They aim to

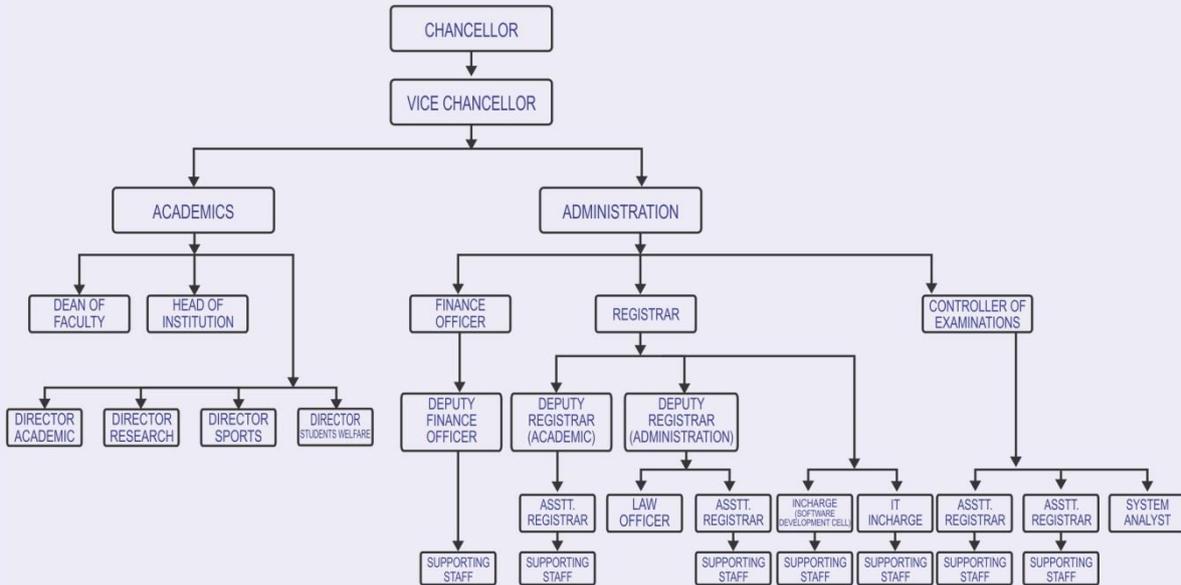

- (1) provide management with timely and accurate information about the status of the all the projects being undertaken by the institution and
- (2) support policy decision-making that impacts the successful completion of projects, such as changes to staffing, funding, project prioritisation and workload.

During the academic enterprise-level implementation phase, the Executive staff will have already begun to assume some of the day-to-day responsibilities for developing and maintaining ongoing project plans. By the end of this phase, all responsibility for developing and updating individual project plans shall *have* been transitioned from the Action Team to the Executive Body.

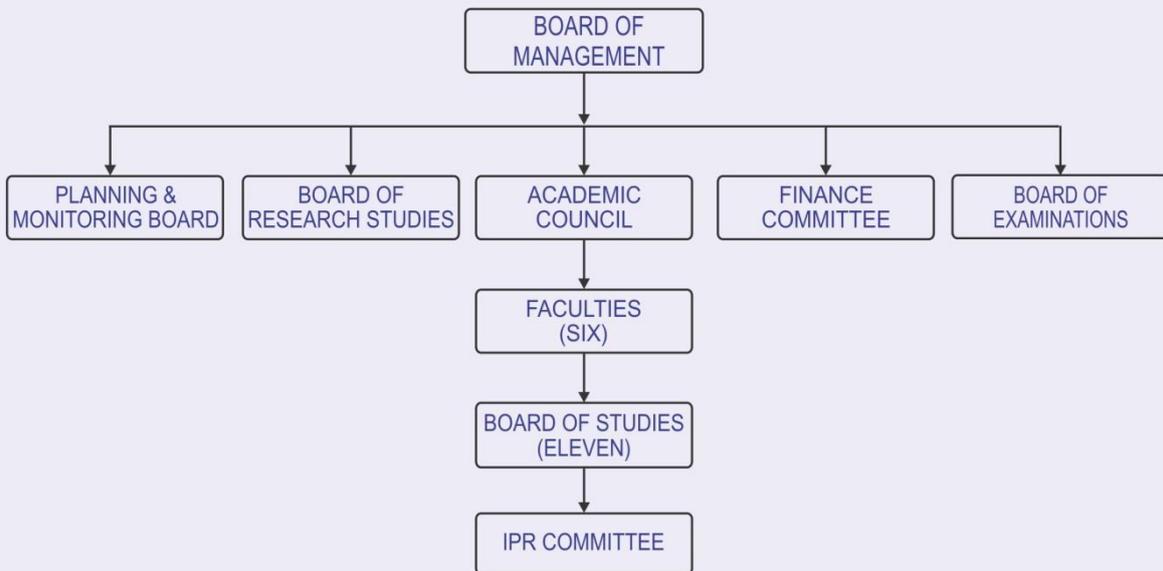

Deliverables Expected

- Implementation of the academic enterprise-level implementation structure.
- Turnover of the day-to-day responsibility for developing and maintaining individual project plans to Executive Body.
- Finalised requirements and a plan for the maintenance phase.

Sr. No.	Title of Research Project	Sponsoring Agency	Investigators	Research Grant (Rs.)
Department of Microbiology				
1	Bacterial and antimicrobial resistance pattern in Pune, India in febrile illness.	Dr. D. Y. Patil Medical College, Pune and John Hoffkinis University, USA	Dr. R. N. Mishra	4,60,000/-
2	Efficacy of line probe assay for rapid detection of MDR tuberculosis at tertiary care hospital in India	RNTCP	Dr. Savita Jadhav	1,98,000/-
3	Extra pulmonary tuberculosis: emerging non- tuberculoses Mycobacterial infections	ICMR	Dr. Chanda Vyawahare	35,00,000/-
4	Detection of Respiratory Tract Pathogens with Microarray and Conventional Methods in Pediatric Patients Having Respiratory Tract Infections	DBT	Dr. Nikunj Das	67,00,000/-
Department of General Medicine				
1	“Evaluation of safety and Efficacy of Hydroxychloroquine Sulfate as an Adjunct to Diet and Exercise to Improve Glycemic Control in Type 2 Diabetes Patients Uncontrolled on Sulfonylurea+ Metformin Combination”	IPCA	Dr. A. L. Kakrani	75,000/-
Department of Ophthalmology				
1	Effect of Television viewing on ocular health in Paediatric age group	DPU	Dr. Rupali Maheshgauri	25,000/-

Sr. No.	Title of Research Project	Sponsoring Agency	Investigators	Research Grant (Rs.)
Department of Respiratory Medicine				
1	Use of the miDOT application for video based Directly Observed Therapy in India	Johns Hopkins	Dr. Tushar Sahasrabudhe Dr. Shailesh Meshram, Dr. Sudhir Dahitankar	US \$ 12,075.00
2	The Impact of Diabetes on TB Treatment Outcomes	Johns Hopkins / NIH / NAID	Dr. Tushar Sahasrabudhe Dr. Arjunlal Kakrani, Dr. Dakshayani Pandit, Dr. Vijayashree Gokhale, Dr. Shailesh Meshram Dr. Sudhir Dahitankar	US \$ 99,397.00
Department of Dermatology, Venerology & Leprosy				
1	Towards understanding stem cell homeostasis	CSIR IGIB	Dr. Aayush Gupta	4,50,000/-
2	Efficacy of minoxidil & finasteride topical in AGA	LAMBADA Ahemedabad	Dr. H. V. Talanikar	3,00,000/-
3	Efficacy of takfa (0.1%) cream in AD	LAMBADA Ahemedabad	Dr. H. V. Talanikar	3,00,000/-

Dr. D. Y. Patil Dental College & Hospital

Sr. No.	Title of Research Project	Sponsoring Agency	Investigators	Research Grant
1	“Photofunctionalisation of different implant surfaces and evaluation of osteoblastic response in compromised bone situations”	International Team of Implantologist(ITI), Switzerland –	Dr. Supriya Kheur	US \$ 33,550.00
2	Prevalence of Hypoplasia associated severe early childhood caries and deciduous molar hypomineralization amongst 3- to 6- year old anganwadi children in Pune, Maharashtra – A cross sectional study	NESTLE Foundation	Dr. Sahana Hegde	US \$ 1,800.00

Dr. D. Y. Patil Biotechnology & Bioinformatics Institute

Sr. No.	Title of Research project	Sponsoring Agency	Investigator	Research Grant (Rs.)
1	Molecular signalling & docking studies of Degulin & its derivatives with cell cycle arrest, apoptosis & anti-angiogenesis pathway proteins in cancer cell signalling pathways	DST-SERB	Dr. K. V Swamy	17,64,250/-
2	The emergence & persistence of novel resistance to 3 rd generation cephalosporins & carbapenem in bacteria in the environment	FORMAS	Prof. Neelu Nawani	12,73,757/-
3	Exploitation of abnormal DNA repair cancer as a strategy for cancer therapy	DST-SERB	Dr. Nilesh Kumar Sharma	22,63,000/-
4	Harnessing the potential of neo-glycoconjugates in antigen cross-presentation for effective CD8 ⁺ T cell response in cancer	DST-SERB	Dr. Rajesh Kumar Gupta	40,02,027/-
5	Opportunities to Explore Microbial Diversity industrially important microbial produces	DBT	Prof. Neelu Nawani	7,13,32,000/-
6	Investigating landscape of crosstalk between ARM kinase & DNA ligase III in breast carcinoma cells	DST-SERB	Dr. Soumya Basu	23,50,000/-

Ongoing Major Research Projects by Faculty Members funded by Dr. D. Y. Patil Vidyapeeth

Dr. D. Y. Patil Biotechnology & Bioinformatics Institute

Sr. No.	Title of Research project	Investigator	Research Grant (Rs.)
1	Investigating landscape of crosstalk between ATM kinase and DNA ligase III in breast carcinoma cells	Dr. Nilesh Sharma	5,15,000/-
2	Effect of mutation of the transmembrane polar residues of CD151 on its subcellular localization and invasion	Dr. Amit Ranjan	3,25,000/-
3	In vitro safety evaluation of cholesterol depleted milk	Dr. Manisha Deshpande Dr. Neelu Nawani	13,00,000/-
4	Evaluation of chemopreventive/anti-cancer activity of lactic acid bacteria on colon carcinoma	Dr. Soumya Basu Dr. Neelu Nawani	17,75,000/-
5	Screening of lactic acid bacteria for characteristic human and plant probiotic properties	Dr. Neelu Nawani Mrs. Manisha Junnarkar	5,20,000/-
6	Bioprospecting of beneficial bacterial endophytes from endemic plants in western ghats of India	Dr. Rachana Pandey	7,85,000/-
7	Harnessing the potential of antigen presentation in immunotherapy	Dr. Rajesh Gupta	13,62,000/-
8	In vitro enzymatic studies on protease inhibitors originating from plant source to analyze their antimicrobial potential	Mrs. Ashwini Puntambekar	2,25,000/-
9	Exploring the potential of agricultural and domestic lignocellulosic feedstock for microbial production of bioethanol	Dr. G. D. Tandon Dr. Neelu Nawani Mr. Amol Salagare	5,30,000/-

Ongoing Research Projects by Students funded by Indian Council of Medical Research (ICMR-STS), New Delhi

4	Dr. Shruti Nair	Public Health Dentistry	To assess the efficacy of Guduchi (<i>Tinospora cordifolia</i>) against gingivitis and dental caries -A Clinical and Microbiological, before and after study without a control group	Dr. Pradnya Kakodkar
5	Dr. Sonal Kale	Public Health Dentistry	Assessing oral findings of dental patients who screen high risk for obstructive sleep apnea (OSA) reporting to Dental College and assessment of KAP regarding the same amongst the college dentists	
6	Dr. Deepika Dagar	Public Health Dentistry	Content analysis of oral health information in school textbooks of different boards and assessment of the oral health promoting activities in schools of Pune- Descriptive study.	
Department of Oral Pathology & Microbiology				
1	Dr. Pooja Jaiswal	Oral Pathology	Association of neutrophil density in the lesional tumor tissue with nodal metastasis in OSCC.	Dr. Supriya Kheur
2	Dr. Pallavi Singh	Oral Pathology	Comparative evaluation of efficacy of confocal Microscope & compound Microscope in observing dysplastic changes.	
3	Dr. Shraddha Saner	Oral Pathology	Comparative evaluation of three methods for sex determination in forensic odontology	
4	Dr. Shakira Choudhary	Oral Pathology	Analysis of IHC localization of Focal adhesion kinase molecule on epithelium of KCOT to establish its biological behaviour	Dr. Sachin Sarode
5	Dr. Revati Deshmukh	Oral Pathology	Immunohistochemical expression of CC chemokine Ligand 2 (CCL2) and alpha smooth muscle actin (α -SMA) in oral submucous fibrosis	Dr. Gargi Sarode
Department of Prosthodontics and Crown & Bridge				
1	Dr. Chandra Ahuja	Prosthodontics	Comparative Evaluation of Flexural Strength of Maxillary Denture Bases Made From Three Commercially Available Acrylic Resin Denture Base Materials In Different Palatal Vault Configurations – In Vitro Study	Dr. Amit Jagtap

Sr. No.	Student Name	Spcialization	Topic of Synopsis	Name of Guide
2	Dr. Arpita Tandan	Prosthodontics	Comparative evaluation of the dimensional accuracy of closed tray & open tray impression technique for dental implant using two different impression materials-In vitro study	Dr. Nilesh Bulbule
3	Dr. Mansi Jain	Prosthodontics	Comparative evaluation of compressive strength of type IV dental stone after air drying & microwave drying -In vitro study	
4	Dr. Rachel Quadros	Prosthodontics	Comparative evaluation of colour stability of 3 provisional prosthetic material exposed to tubal & non tubal mouth rinse – In vitro study	
5	Dr. Pooja Dang	Prosthodontics	Comparative evaluation of the linear dimensional accuracy & stability of polyether impression material using these impression technique & 2 pouncing time intervals - In vitro study	Dr. Amit Jagtap
6	Dr. Pallavi Prasannan	Prosthodontics	Comparative evaluation of hardness & fusil fond strength of heat polymerized acrylic & heat polymerized silicone soft lives when stud in hand & soft water at different time intervals –In vitro Study	
7	Dr. Yashyashwini Sayalwar	Prosthodontics	Comparative evaluation of dimensional accuracy of three impression techniques in angulatial implants – An invitro study	
8	Dr. Onkar Jabade	Prosthodontics	Comparative evaluation of compressive strength of type III & IV gypsum product using water of various sources.	Dr. Dilip Kakade
9	Dr. Riddhi Kulkarni	Prosthodontics	Comparative evaluation of linen dimensional change in there autopoly meriting acrylic resin tray materials at four different time intervals- An invitro study.	

Sr. No.	Student Name	Spcialization	Topic of Synopsis	Name of Guide
10	Dr. Ankita Kadam	Prosthodontics	Comparative evaluation of dimensional accuracy of dental implant impression obtained after splinting implant impression copings with three different splinting materials –In vitro study	Dr. Dilip Kakade
11	Dr. Siddhique Qureshi	Prosthodontics	Comparative evaluation of the ancon of the gingival displacement using three recent gingival retraction systems –In vivo study	Dr. Nayana Anasane
12	Dr. Pankti Gajjar	II MDS	Comparitive evaluation of antimicrobial properties of Artemisia pallens extract and 0.2% chlorhexidine against s Mutans- in vitro	Dr. Rahul Deshpande
13	Dr. Pradnya Kshirsagar	II MDS	Comparitive evaluation of three different luting cements used for cementation of stainless steel crown in primary mandibular second molars an in vitro study	
14	Dr. Krishnapriya Nene	II MDS	A comparative evaluation of the efficacy of two local anaesthetic solutions in children undergoing pulpectomy procedures – clinical study	Dr. Vikas Bendgude
15	Dr. Jagruti Patil	II MDS	Knowledge and attitude towards dental avulsion among public and private school teachers in Pimpri chincjwad – Descriptive Survey	
16	Dr. Priyadarshini Thakur	II MDS	Comparative evaluation of resin infiltration and CPP ACPF on the microhardness of the demineralized enamel – in vitro study	Dr. Ananth Kamath
17	Dr. Aditi Shere	II MDS	Comparitive evaluation of antimicrobial properties of five different concentrations of Ficus racemosa (Audumber) extract and 0.2% chlorhexidine against s mutans – in vitro study	Dr. Vishwas Patil

Sr. No.	Student Name	Spcialization	Topic of Synopsis	Name of Guide
18	Dr. Shantanu Deshpande	III MDS	Co-relation of PUFA and COHIP amongst 12-15 year old children from municipal corporation secondary schools.	Dr. Vikas Bendgude
19	Dr. Khyaati Gidwani	III MDS	Oral health status and aral hygiene practice among visually impaired children in pune and pimri chinchwad.
