About the Conference

Interdisciplinary Research is the need of the hour.

DPU is taking its first step to provide a common platform to initiate interdisciplinary research. The objective of the conference is to motivate faculty and research scholars for undertaking collaborative research. This will enable to generate new ideas and "Out of Box" thinking for a better research outcome.

Scientific session will include

- Guest faculty lectures
- Scientific paper presentation

Presenters have an opportunity to publish
their full paper in the conference proceedings
